**FOR IMMEDIATE RELEASE**

**Central Indiana's Boy Scouts Council Partners with n|Frame for  
Technology and Business Continuity for Fourth Consecutive Year**

**Indianapolis** [June 15, 2010] — The Crossroads of America Council Boy Scouts of America has retained n|Frame, one of the state's largest data centers and technology infrastructure service providers, for the fourth consecutive year to provide technology and business continuity services. This includes off-site data server storage (also known as data server co-location) and commercial Internet connectivity among other services. The renewed contract and added services coincide with Crossroads' recent move to a new headquarters in Indianapolis.

The national council, Boy Scouts of America, requires that its state-level councils like Crossroads put disaster recovery and business continuity strategies in place to protect important systems and data. Part of the mandate involves hosting data servers off-site at a professional data center such as n|Frame's. Crossroads' data servers have been safely stored at n|Frame's 40,000 square foot data center on the north side of Indianapolis for the last four years.

"Renewing our service agreement with n|Frame was an easy decision," commented Kevin McPherson, director for support services for Crossroads of America Council Boy Scouts of America. "Not only has n|Frame been a long-term advocate for the Boy Scouts, the company provides great customer service and its off-site data back up is exceedingly dependable."

"n|Frame and I personally, support the Boy Scouts and we're proud to have them as a client," commented Robert J. Alcorn, chief operating officer of n|Frame. "This partnership is a great example of our ability to serve organizations of all sizes and across all industries. Our services are completely scalable and we customize our technology solutions based on an organization's unique challenges and requirements."

## **About Boy Scouts**

Crossroads of America Council serves more than 35,000 Scouts in 25 central Indiana counties with the support of nearly 11,000 registered volunteer leaders, five Scout centers and seven Scout camps. Boy Scouts of America is a youth development organization that's designed to prepare young people to make ethical and moral decisions throughout their lifetimes. The goals of Scouting consist of citizenship training, character development and personal fitness. Throughout the Boy Scout program, young people are encouraged to advance through ranks by fulfilling requirements in the areas of leadership, service and outdoor skills. To get more information on Scouting, call (317) 813-7125 or 877-925-1900 (toll free) or visit [www.becomeascout.org](http://www.becomeascout.org).

## **About n|Frame**

Founded in 1995 to provide telecommunications, Internet access and technology services, today n|Frame is one of the state's largest data centers and technology infrastructure service providers. All of n|Frame's services are provided from its \$30 million, SAS 70 type II compliant, state-of-the-art technology center in Carmel, Indiana (north of Indianapolis). Its 40,000 square foot secure facility is accessible by clients and staffed by certified IT engineers 24/7. n|Frame serves companies of all sizes across Indianapolis and specializes in data center services, commercial-level Internet broadband access, network management, disaster recovery and cloud computing/virtualization services. n|Frame is part of a national network of data centers owned by Continental Broadband. To learn more about n|Frame, call 317-805-3759 or visit [www.nframe.com](http://www.nframe.com).
